RBLC Ranking Report

Your search has found **215** facilities that match your search criteria. You can view details for one or more facilities by clicking on the highlighted RBLC identifier or the process description in the list below. To create a report, select one of the standard output formats from the [list of reports](#) at the bottom of this page. Only facilities that are checked in the table below will be included in your report. Click on the check box next to any facility to switch between checked and unchecked or use the "Check" or "Un-Check" all facilities buttons at the top of the list to check or uncheck all records in the list.

Please note that the use of your browser's BACK button to change the search conditions may result in inaccurate results.

These results are for USA only.

Search Criteria

Pollutant: Nitrogen Oxides (NOx)

Process Category: Large Combustion Turbines (> 25 MW)

Process Type: 15.210

Process Name: Natural Gas (includes propane & liquified petroleum gas)

Permit Date Between 08/04/2000 And 08/04/2010

Check
